15th June 25: NSGU Update® Endoscopic Workshop,
Hands on Training on Principles of
Hepatico-Jejunosotomy, Endoscopy & Vascular Anastomosis

**Under the Auspices of : RGUHS, KSC-ASI, MERT & BMCRI
Institute of Gastroenterology Sciences & Organ Transplant**

Indian Association of Surgical Gastroenterology (IASG) Mid-Term Conference
22nd National Surgical Gastroenterology (NSGE) Update Single Theme Live Workshop cum CME 2025

Dear Friends,

The *National Surgical Gastroenterology (NSGE) Update®*, since its inception in 2002, has successfully conducted its Annual Single Theme Live Workshop cum CME, earning a reputation for excellence in surgical education across the country.

We take immense pleasure in hosting the **22nd Annual NSGE Update®**, along with the **Mid-Term Conference of the Indian Association of Surgical Gastroenterology (IASG) on 13th and 14th June 2025** at Bengaluru. This year's theme, "**Gall Bladder & Bile Ducts - Problems & Solutions**", promises to address pressing challenges with groundbreaking insights.

As per the Association of Surgeon of India mandate, IASG & Karnataka State Chapter of the ASI in collaboration with the NSGE Update® are celebrating **Surgeon's Day on 13th June** during the inaugural ceremony. This event forms part of a week-long celebration of ASI titled "Indian Surgeon Week," honouring the dedication of surgical professionals nationwide.

After the completion of the Mid-Term IASG-Conference on 13th & 14th June, The NSGE Update® on **15th June 2025**, will conduct a hands-on workshop on the **principles of Hepatico-jejunostomy, Endoscopy Workshop & Vascular Anastomosis**, tailored for 50 aspiring GI surgeons on a first-come, first-served basis. The NSGE Update® on 15th June 25 will also feature a Live Operative and Endoscopic Workshop focusing on solutions to gall bladder and bile duct conditions.

This prestigious event is hosted by the Department of Surgical Gastroenterology & Liver Transplantation, Institute of Gastroenterology Sciences & Organ Transplant (IGOT), Bengaluru.

As India's first and only autonomous government gastroenterology institute, in the last 3 years, IGOT has evaluated and treated 1.8 lakh patients, including performing 24 liver transplantations. Our academic offerings include an RGUHS-accredited Fellowship in GI Surgery since 2022, DrNB SGE (2 seats) since 2023, and the forthcoming MCh SGE (2 seats) and MCh HPB Surgery (2 seats) from 2025.

We are privileged to welcome HPB surgeons of international repute as our invited faculty.

Bengaluru in June, embraced by the early monsoon, will offer a refreshing backdrop to this three-day event, blending academic rigour with culinary delights. We assure you an exceptional second weekend of June 2025, filled with learning and enjoyment.

Join us for an unforgettable academic & gastronomic experience in Bengaluru this June!
